CULTURE FIRST
MINDSET

JOE S SCHMIT

WORLD CLASS
CULTURE
STRATEGIST

The elite organization today creates an environment where employees enjoy being there, being productive and being valued. This happens ONLY when organizations create an atmosphere of compassion, connection and clarity.

THREE SECRETS FOR A CULTURE FIRST MINDSET

BE COMPASSIONATE

Compassion is contagious. When people are at the center of the business, success is the by-product.

BE THE CONNECTOR

Research proves connected teams positively IMPACT the bottom line by 22%.

BE THE CATALYST

Clarity is the catalyst for company growth. In today's economy, culture is more important than strategy.
